

lung cancer
awareness

early diagnosis
saves lives

Have you ...

Had a cough for over three weeks?

Been feeling more tired than usual?

Got a chest infection even after
taking antibiotics?

Been feeling breathless?

These are all symptoms that need to be checked by your GP. If it's not serious,
you'll have peace of mind. If it is lung cancer, it needs treating quickly.

Don't wait. Make an appointment today.
