

Britain Against Cancer

www.targetovarian.org.uk

- Lack of awareness and lack of opportunity in primary care
- Low awareness in the public

Less Common Cancers Consultation, Cancer 52 and NCSI Research Workstream, June 2009

Target Ovarian Cancer Pathfinder Study, Synovate Summary Report June 2009

Identifying symptoms of ovarian cancer: a qualitative and quantitative study, Bankhead CR et al, BJOG 2008

The Long Path to Diagnosis

- Scarcity for many less common cancers
- Threats to existing posts

Clinical Nurse Specialists
A much needed resource

- Isolation due to tumour type
- Lack of accessible emotional support
- Commissioning inequalities

Less Common Cancers Consultation, Cancer 52 and NCSI Research Workstream, June 2009

Target Ovarian Cancer Pathfinder Study, Synovate Summary Report June 2009

Out there alone

Philippa Carr
pcarr@targetovarian.org.uk
thank you

For every woman. For life.
