

BE IN THE KNOW

What the challenge is about

It's a golf challenge to raise money for Macmillan Cancer Support. A team of four players takes on four rounds of golf in one day and asks friends and family to sponsor them.

What it involves

The team will tee off at dawn, probably do the first two rounds fairly quickly, then play on until they finally complete that 72nd hole. Their friends and family might want to come and cheer them on.

When it is

On or around 20 June – the longest day of the year. This is so they can make the most of the daylight hours.

What it's for

Macmillan provides vital physical, financial and emotional support to people with cancer when it's needed most.

We can help with decisions around treatment, help with money and work matters, and provide reassurance for people and their families.

How the team will be fundraising

Through their online team page on the website but they will also be accepting offline donations through sponsorship forms or cash on the day.

How teams score

Scoring is the best two Stableford scores in the team per hole, with full handicap allowance, if they have one. Their score doesn't affect what they fundraise, but it doesn't hurt to try! Inactive handicaps will be accepted. An official handicap isn't needed to join in.

What tees teams should play from

To save time they should play off the forward tees.

How you can order merchandise

Call the Macmillan Support Care Hub and quote **GOLFCLUB2020** to get free merchandise to decorate your club for the day, including bunting, balloons and a banner.

You can order more of these items and anything else that catches your eye from our online shop: shop.macmillan.org.uk/golf

How you can download customisable posters

You can download the posters from be.macmillan.org.uk/golf

What to do if you need more information
